

CAREER PROFILE

Logistics Superintendent

CHS is the largest cooperative in the United States and one of the biggest names in **agronomy**, energy, and grain processing. The logistics of maintaining schedules for inbound and outbound shipments, managing transportation vehicles, and organizing materials and products can seem almost impossible. This is where **logistics superintendents** play a vital role!

WHAT IS A LOGISTICS SUPERINTENDENT?

Logistics superintendents wear many hats in their role. They must supervise the work of the entire logistics team. They oversee all transportation for a company and its products, directing employees and dispatching various modes of transportation ranging from truck and rail, to barges and vessels. They manage the flow of all materials into and out of the plant or distribution center. They are in charge of making sure that the **supply chain** moves smoothly.

CAREER OUTLOOK¹

The demand for a **logistics superintendent** is projected to grow near the average rate.

Projected job growth: 4% (2019–2029)
Median annual salary: \$94,560/year*

***Note:** *Listed salary range reflects national averages and should only be used as a reference. Compensation can vary due to a variety of factors ranging from location, industry, cost of living, years of experience, and more. You should expect to discuss salary on a job-by-job basis.*

AGRONOMY: The science behind soil management and crop production.

SUPPLY CHAIN: A network between a company, its suppliers, and its end users.
